

## Mrs. Leona Lincoln Champion Blood Donor; Torrance Gives 6603 Pints

Torrance branch, American Red Cross, was responsible for collecting 6603 pints of blood plasma out of a national total of 13,300,000 pints, according to figures released yesterday by Mrs. O. A. Kresse, blood bank chairman.

A total of 30 visits were made by the mobile unit to collect this amount from donors, and the Gallon Club members reached a total of 157 during the final visit last month.

The year 1944 was the heaviest, the mobile unit receiving 3115 pints from Torrance donors in 13 visits. The first year, 1942, saw 213 pints collected during two visits; 1943, 1934 pints in nine visits; and 1945, 1341 pints in five visits. The average "take" from the Torrance blood bank was 220 gallons for the 30 visits.

It was pointed out that the Los Angeles center and mobile units, among which was the Torrance branch's facility, was responsible for 1,094,511 pints of blood for use in treating wounded service men.

Mrs. Leona Lincoln is the champion blood donor of the Torrance branch with 15 pints to her credit.

Three persons, Paul Findley, Fred Folts and Mary Towler, tied for second place with 14 pints.

Third place found six persons tied, each with 13 pints. They are Dorothy Casalegne, B. J. Michels, Gertrude Murrison, Ruth Parson, Bessie Powers and Hettie Wance.

Fourth place found George H. Bliss, Frank C. Lathrope, Elbert Quimby, Mayor W. H. Tolson and Ellen Timmers tied with 12 pints.

## Donald Haynes Served On Iowa In Tokyo Bay

Donald B. Haynes, metalsmith, second class, USNR, whose wife, Mrs. Donna B. Haynes, lives at 1340 Engracia st., Torrance, who took part with the Light Cruiser San Diego in many of the Pacific operations, was at his battle station in Japanese waters when announcement of the Japanese capitulation was broadcast. His ship was among those that then entered Tokyo Bay for the first stages of the occupation.

A number of the crewmen on the San Diego were commended by the commanding officer for their work during the ship's strenuous 60-day operating period from March to May.

It may be laid as an universal rule that a government which attempts more than it ought will perform less.
